HEALTH STATUS

This declaration is strictly confidential. It is required for health & safety purposes and its aim is to protect all members of the organisation including the applicant. Details provided here may be taken into consideration when determining a members suitability for a particular Civil Defence activity.

ATTRIBUTES & REQUIREMENTS TO PERFORM THE FUNCTION OF A CIVIL DEFENCE VOLUNTEER

- Civil Defence is an inclusive organisation. If you can meet certain standard criteria, you may apply to join your local organisation. There are many areas of the civil defence that do not demand high levels of personal fitness and stamina.
- Applicants are advised, however, that the civil defence services are a second line emergency service and in some areas, the mental and physical needs on volunteers are exactly the same as those demanded of full-time emergency service personnel. Volunteer admission to training and duty in such areas is subject to specific medical requirement and volunteers must maintain their fitness levels so that they can continue to satisfy these requirements while they remain active in these areas.
- The Civil Defence organisation has a duty of care to all its volunteers and to members of the public and must be satisfied that no one is put at avoidable risk as a result of the action/inaction of a volunteer. This duty includes taking measures to ensure that no one is put at risk by the inability of a volunteer to perform in any situation as a direct result of a known pre-existing medical condition or an inadequate personal fitness level.
- Applicants are asked to consider carefully and answer as accurately as possible the three questions listed below. The medical conditions listed have been identified by the Medical Advisor to the Civil Defence Board as ones, which might present difficulty for volunteers in certain areas of the civil defence services.
- Should you require further clarification with regard to the above you should discuss the matter with your Civil Defence Officer.
