

# The Vision for Regeneration of the East City Area

## Thank you for coming along!

### What is the Vision for the Regeneration of the East City Area?

- To make the East City area and Cranmore a more attractive place to live with better, more convenient connections to existing and new facilities, locally and in the rest of Sligo.
- To enable individuals and communities of the area to avail of opportunities, with good access to employment, education, health and family support services.
- To see the East City area become the location of choice for future generations to live, work and visit.

### How do we achieve this?

Social and Economic Initiatives will focus on the needs of people and the strengths of the East City area

Physical interventions to address needs and to make the most of the area

- Improving access to quality amenities and open spaces
- Promoting historical and landscape assets in the area
- Providing quality spaces for community facilities
- Improving quality of the roads, streets and urban spaces
- Improving access and links
- Getting the most potential out of the vacant and potential sites in the area
- Exploring options for sustainable energy to reduce energy costs
- Improving housing quality and opportunity in the area

### Do you agree with this Vision?

This exhibition explains the ideas and current thinking on the best way to deliver significant improvements.
