Recorded Monuments and Places (RMP)

There are ten recorded monuments that are within 100m of the edge of the proposed route and have been accorded Cultural Heritage Constraint (CHC) numbers.

RMP No: SL026-026(001,002,003)
CHC No: CHC 02
Townland: Toberbride
Parish: Ballysadare
Barony: Tirerrill
Classification: Ecclesiastical remains, possible
Cartography: Marked on 1st and 3rd editions
Situation: In pasture, on a low flat-topped ridge with broadly sloping sides, steepest on the W side, and bordered W-E by low-lying, wet ground and SE-S by a gently rising ridge of higher ground.

Condition: Fair

Description: SL026-02601

Rath: The bank is removed leaving only grass covered platform. An arc of scarp (L 70m; Width of slope 107m; H 0.5m) S-NNW coincides with the natural break of the slope at top of ridge. There is a terrace (Width 4.5m) at the base of the scarp from which the ground falls into a broad slope to the base of the ridge. On the E side of the site there is a ditch which appears to be a recent feature. O'Rorke (1878, 241) describes the site as 'a large rath or fort...oblong in shape'. There is a souterrain in the S half of the interior. And a possible fulacht fia immediately to the W. 10/05/02

SL026-02602

Souterrain: In the S half of the rath close to the scarp of the rath, at S. Low, roughly circular rise marked by long grass and brambles, from which stones protrude, especially on the E side. Within the S edge of the rise is a collapsed, roofless souterrain passage. (Width 1m; L 4m N-S; D 1m) – overgrown. At N end is an *in situ* lintel covering a low opening (H 0.3m) to a drystone - built passage which extends to the north. Roughly 10m to the N, protruding from the ground, are two further *in situ* lintels.

SL026-02603

Holy well: Indicated on 1913 OS62 map at the S end of the rath, above. No remains of the well were positively identified, though a large slab is visible in the boggy ground at the S terminal of the scarp of the rath. May be the remains of the well. It is recorded that the 'patron day' of the parish is February 1st, St Brigids Day (OSL, 375).

RMP No: SL026-164
CHC No: CHC 04
Townland: Toberbride
Parish: Ballysadare
Barony: Tirerrill
Classification: Possible enclosure
Cartography: Not marked on 1st ed. Marked on 3rd ed.
Situation: In pasture.
Condition: Unknown

Description: A small circular enclosure is visible in an aerial photograph (OSAP, 6 3985-6); the interior of the enclosure is evident in the photograph as a dark-coloured area and the enclosing element as a lighter-coloured band of grass. It is not visible at ground level.

References: Egan, U. *et al.* 2005 Archaeological Inventory of County Sligo.

RMP No: SL026-076
CHC No: CHC 21
Townland: Cloonamahan
Parish: Ballysadare
Barony: Tirerrill
Classification: Enclosure

Cartography: Indicated on OS 3rd edition.
Situation: On a rise in pasture overlooking main Sligo/Boyle road.
Condition: Destroyed
Description: Site has been removed and apparently replaced by a new road. A rath, 26.77, lies c. 80m to the E. E O'C 23/09/92

RMP No: **SL026-077**
CHC No: **CHC 23**
Townland: Cloonamahan
Parish: Ballysadare
Barony: Tirerrill
Classification: Enclosure
Cartography: Indicated on OS 1st and 3rd editions.
Situation: Situated on prominence overlooking main Sligo/Boyle road.
Condition: In fair condition.
Description: Circular site with internal diam. of 31m. Bank survives best on N/W side. Separated from the ditch by a berm which is 1.5m wide and c. 60cm in depth below the external surface. The entrance is probably on the E side where there is a wide gap through the bank and corresponding causeway through ditch. Also on N/w side are indications of an outer bank which is 2m wide and 40-50cm in height above external surface. E O'C 23/09/92

RMP No: **SL034-112**
CHC No: **CHC 75**
Townland: Tawnagh
Parish: Tawnagh
Barony: Tirerrill
Classification: Enclosure
Cartography: Marked on OS 1st and 3rd edition.
Situation: In pasture, on an E-facing slope of a ridge.
Condition: In fair condition.
Description: A raised circular area (diam. 24m) defined by an earthen bank (Wth 4m; int. H 1.5m; ext. H 1m) along the W arc and by a scarp (H 1.2m) elsewhere. Faint traces of an external fosse (Wth 3m) are evident.

RMP No: **SL034-181**
CHC No: **CHC 93**
Townland: Castlebaldwin
Parish: Kilmacallan
Barony: Tirerrill
Classification: Enclosure
Cartography: Marked on OS 3rd edition.
Situation: In undulating pasture, on a low rise on top of a S-facing slope.
Condition: Poor.
Description: Roughly circular area enclosed by remnants of earthen bank. No evidence of a ditch. Diam.: 24m E/W x 26m N/S. Some stones protruding from beneath the sod. The bank, which is very low and degraded, may have had a kerb of stones. The interior is level. April 1993

RMP No: **SL034-186**
CHC No: **CHC 96**
Townland: Cloghoge Upper
Parish: Aghanagh
Barony: Tirerrill
Classification: Holy wells x3
Cartography: OS 1st and 3rd editions.
Situation: In a low-lying hollow at the base of a ridge in an area of poorly-drained, marshy land.
Condition: Fair. Tober Murray has concrete casing over it, and Tober Patrick is not in very good condition.

Description: The three wells are very close to each other at the base of a ridge. Tober Bride consists of a stone wall built into the face of a slope and from beneath which, a spring flows. Tober Murray consists of a concrete box covering a modern pipe. It uses the water flowing from Tober bride. Tober Patrick also consists of a concrete box covering a water pipe. However, close to it is a circular setting of large stones, which encloses a large area now dry, but quite marshy and not in direct flow of spring water. Probably the original site of one of the wells, probably Tober Patrick.

O'Donovan, J. 1836 *Letters containing information relative to the antiquities of the county of Sligo collected during the progress of the Ordnance Survey in 1836*

RMP No: SL034-184

CHC No: CHC 98

Townland: Castlebaldwin

Parish: Kilmacallan

Barony: Tirerrill

Classification: Ringfort

Cartography: OS 1st and 3rd editions.

Situation: On back of narrow, roughly N/S rise or low ridge in area of mixed, poorly drained and fair pasture.

Condition: A semi-circular area (7m x 6m) has been quarried out of site on west side.

Description: Ringfort. Raised oval area 26m N/S x 16m E/W. Only slight traces of enclosing bank remain. No evidence of ditch. The bank is levelled, only faint traces remain on the south. There is no clearly defined entrance. A gap/low area c.2m wide occurs on the east opposite, which in the interior is a 4m wide hollow depression. The site is lowest relative to external ground level on north. April 1993

References: OPW correspondence dated 16/03/88 mentions a lime-kiln hole at the west edge.

RMP No: SL034-185

CHC No: CHC 99

Townland: Castlebaldwin/ Bellanagarrigeeny

Parish: Kilmacallan

Barony: Tirerrill

Classification: 17th Century house

Cartography: OS 1st and 3rd editions.

Situation: On level area in low-lying pasture.

Condition: Good condition. Repaired by OPW in 1939/40.

Description: Small, 2 storey, L-plan house built in early 17th century. Has few defensive features. Rectangular main block with high gables at the NW and SE which survive with rectangular chimney stacks intact. A square projection on the south side originally contained a timber stairwell. The entrance, with evidence of a draw-bar-socket, is in the NE wall at the east end. There was a machicolation above the entrance of which only 2 corbels survive. Doorway is at external ground level but 0.9m above present internal ground level, pointing to the presence of a semi-basement. There are 2 fireplaces in the NW wall and one on the upper storey in the SE wall. There are large inwardly-splayed windows with low segmented arches in the NE and SW walls and smaller windows in the SE wall. There are loops flanking the fireplaces in the NW and SE walls and there is also a loop in the projection originally containing the stairs. The house is constructed of mortared, roughly cut sandstone blocks. Outside the house there are remnants of a small square enclosure or outhouse abutting the NW Wall. Note: The 17th century house at Castlebaldwin/Bellanagarrigeeny is recorded as a National Monument (File No.C94:232/1/37) described as 'Castle'.

RMP No: SL034-191

CHC No: CHC 100

Townland: Cloghoge Upper

Parish: Aghanagh

Barony:	Tirerrill
Classification:	Enclosure
Cartography:	Not marked on 1 st ed. Marked on 3 rd ed.
Situation:	In area of pastureland characterised by series of low undulating ridges. Main Sligo-Boyle road lies adjacent to the site on N.
Condition:	Fair. 2m x 3m area has been quarried out of N-NE side. Fairly thick overgrowth around perimeter
Description:	<p>A raised, flat-topped oval area with no upstanding bank. Diameter on top: 15m NE/SW x 11m NW/SE. External height: 1.80m on NE; 1.4m W; 0.80m SW. Overall diameter: c. 25m x 18m Distance from top of mound to base of slope is c. 4m. There is a raised projection c. 2m x 3m from the N side of the site.</p> <p>A substantial earthen bank/field boundary respects the enclosure, curving around the E and SE side. This bank is part of the townland boundary between the townlands of Cloghoe Upper and Lower. It extends 40m to S and SW of the enclosure in a wide shallow curve, more or less following the natural contours of the ridge. It is possible that preserves the line of an ancient land division. September 1992.</p>

There are several other recorded monuments in the hinterland of the proposed route. These recorded monuments are all in excess of 100m from the edge of the proposed route and thus have not been accorded CHC numbers. They have been listed below in order to provide a broader picture of the recorded archaeological landscape in the hinterland of the proposed route.

The following is a brief summary of all the RMP sites within 2km of the proposed development.
