**Date:** Tuesday 26 March 2024 22:46:18

---

are writing to Object to the proposed rezoning of land in Carrowhubbock South, Enniscrone, Co Sligo.

It has come to our attention that a rezoning request has been submitted by  
Main St, Enniscrone, Co Sligo  
Reference SLG -C29-97  
To rezone the current Green Belt Zone to a Tourism Zone.

We strongly object to this rezoning application.  
directly border the proposed rezoning site.

We are quite concerned and have outlined our reasons for objection below:

- \* Residential and quiet area with numerous single family dwellings. Privacy of these homes would be compromised.
- \* Run off drain - Owned and maintained by Sligo Co Co., runs through and also through the proposed rezoning site. This drain services all of Carrowhubbock South and North. It is vital that it is not disturbed considering all of the area it services.
- \* Historical Site - Cliff Edge Ring Fort and Hut Site SL016-001001 border the proposed rezoning site. A National Heritage Landmark which is located on private property. It needs to be preserved at all costs and not entice wayward tourists to stomp through it.
- \* Burial Site - SL016-091, sacred and historical and should not be disturbed
- \* Disturbance of privacy, trespassing, litter/waste, blocking entrance gates by numerous vehicles are all concerning given there would be a significant increase in traffic if deemed a tourist zone.
- \* The proposed rezoning area also borders Stony/ Pebble Beach. Safety would be a major concern. The beach is not safe for swimming. It is made up of rocks only, there is no sand and the current is quite rough. During storms the waves crash right across proposed rezone site and into land bringing many stones and debris with it. Each year along Stony Beach evidence of erosion is quite obvious.

Thank you

Regards,

Carrowhubbock South  
Enniscrone, Co Sligo
